

Jabra®

Jabra LINK™ 14201-35

ELECTRONIC HOOK SWITCH

SOLUTION FOR AVAYA PHONES

The Jabra LINK™ 14201-35 enables remote Electronic Hook Switch Control (EHS) with Jabra wireless headsets and the Avaya series 1608, 1616, 9620, 9630, 9640 and 9650.

Jabra wireless headsets with EHS functionality boost productivity as they provide the user with the ability to answer and end a call, while away from their desk.

THE EHS ADAPTER ALLOWS THE USERS TO

- Hear ring tones
 - Answer and end calls
 - Adjust the volume
 - Mute the microphone
- All from their headset

All quite convenient, when they are up to 450 ft. away from their desk! The integration of desk phone and headset allows users to benefit from enhanced mobility and the ability to multitask while on a call. The wireless freedom improves work efficiency and ergonomics throughout the day.

HOW IT WORKS

The Jabra LINK 14201-35 is a plug-and-play solution that converts from the EHS standard used in Avaya phones to the DHSG standard used in Jabra headsets – and vice versa.

COMPATIBILITY

The Jabra LINK 14201-35 is compatible with the Avaya series 1608, 1616, 9620, 9630, 9640 and 9650 and most Jabra wireless headsets. For more details see the specifications on page 2.

GN Netcom is a world leader in innovative headset solutions. GN Netcom develops, manufactures and markets its products under the Jabra brand name.
