reddot design award  
winner 2016

The Konftel Ego is already a winner. Konftel received the Red Dot Award for "Excellent product design" in early 2016. Design, performance and quality are the cornerstones of our business at Konftel.

Skype  
for Business

The Konftel Ego works seamlessly with Skype for Business. It is engineered according to Microsoft's specifications for personal speaker phones and has been successfully tested in a Microsoft-certified laboratory. The Konftel Ego brings OmniSound® audio quality to your Skype for Business conferences, with no compromise whatsoever.

# Konftel Ego. Personal Conferencing. Anywhere.

[www.konftel.com/konftelego](http://www.konftel.com/konftelego)

Konftel has been developing products and solutions for effective distance meetings since 1988. The way we conduct and where we hold our meetings has evolved along with technological advances. Mobility is a watchword today. We want to be able to attend meetings in places other than just the large conference room. Nowadays, meetings can be held with everyone in their own office, in smaller conference rooms or a comfortable hotel lounge. Konftel has made this even easier by designing a product that allows you to decide where and how you want to meet.

The Konftel Ego is a personal speaker phone. It's compact and portable and fits easily inside your briefcase, wherever you're going. Despite its size, the Konftel Ego delivers crystal-clear sound thanks to our unique OmniSound® audio technology. It's ideal for a meeting with a couple of colleagues in one of your smaller conference rooms. Or in a hotel room while you're away from the office. If you're alone in the room, the Konftel Ego is a good alternative to a headset.

The Konftel Ego works seamlessly with Skype for Business, Cisco Jabber, Avaya Communicator and other conferencing tools. It connects easily to a PC via a USB port or to a tablet or smartphone via Bluetooth. Moreover, the Konftel Ego has support for ultra-fast Bluetooth pairing through NFC (near-field communication) and HD quality calls. With Bluetooth A2DP (advanced audio distribution profile) you can play your favourite music with superior audio performance when your meeting has finished. The clear and attractive LCD display screen lets you see at a glance which feature is enabled. This is also shown by the LEDs which shine downwards in different colours. The Konftel Ego has a headset port, and the built-in battery gives you the option of completely cordless use.

OmniSound®      

- Compact, portable speaker phone that connects simply to a mobile phone, tablet or PC.
- Crystal-clear sound with full duplex thanks to OmniSound® audio technology.
- Support for Skype for Business, Cisco Jabber, Avaya Communicator and other conferencing tools.
- Clear LCD screen displays enabled feature.
- Simplified Bluetooth pairing and connection using NFC.
- HD calls over Bluetooth.
- Bluetooth A2DP for superior audio performance when playing music.
- USB port for connection to a computer or other compatible USB device.
- Completely cordless thanks to its built-in battery and Bluetooth (the battery is charged via the USB port and has up to 12 hours operating time).
- Headset connectivity option allows easy switching between headset and speaker function.
